- ◆ INTEGRATED CABLE MANAGEMENT KEEPS YOUR CABLING TIDY AND OUT OF THE WAY
- ◆ STAINLESS STEEL FASTENERS

FOR SIT ON TOP AND SIT INSIDE KAYAKS!

TRANSDUCER MOUNTS

Universal Design!

Use our patented **15mm Magnetic Transducer Mount** on any kayak. No more blind scupper mounts, glue jobs, or drilling holes. Easily share your fish finder set up among multiple kayaks. Tilt it up when launching or beaching to protect your transducer.

Our **Magnetic Transducer Mounts** work amazingly well on **aluminum boats**, even at speeds! It literally installs in a couple of seconds; and you can even mount it either on the transom or the side walls of your boat!

Our **Bolt-On Magnetic Transducer mount** was made for **high speeds** and **protecting your transducer from damage**, yet it still allows the user to remove their electronics from their boat in seconds—this one is on a jet-ski/sea-doo.

If you have an inflatable boat like a Zodiac, a float tube, or a pontoon, our **Strap-On Transducer Mount** is an excellent solution. It also tilts and locks at up to 180°; so it may be protected when launching or beaching your boat.

And check out our fantastic **Glue-On Transducer Mount** for inflatable boats that have closed floors and no hard walls, transoms or extended tubes to mount to.

fishfindermounts.com

COMPLETE UNIVERSAL FISH FINDER MOUNTING SYSTEMS FOR:

- ◆ **FLOAT TUBES**

'TOON MOUNTS

Designed to be low profile for oar clearance—get your fish finder on TODAY!

OUR SERIES OF PERSONAL PONTOON MOUNTING KIT MODELS SHARE ALL THE **SAME FANTASTIC FEATURES OF OUR TUBE MOUNTS**; YET DIFFER IN THAT THEY ARE DESIGNED TO BE **LOW-PROFILE** IN ORDER TO GET YOUR FISH FINDER CLOSE TO YOUR PERSON, YET AT THE SAME TIME NOT INTERFERE WITH YOUR OARS

WE ALSO HAVE **NON-POWERED** LOW-PROFILE KITS IF YOU DECIDE YOU WANT TO PROVIDE YOUR OWN BATTERY OR USE YOUR ELECTRIC TROLLING MOTOR BATTERY

SO IF YOU HAVE AN OUTCAST PONTOON, OR A CLASSIC ACCESSORIES MODEL, OR A BUCKS BAG, YOU NAME IT—OUR MOUNTS WILL PUT A FISH FINDER ON IT
